Creative Movement/Dance Class with Miss Michelle Movement through story telling develops children's spatial awareness and connection between themselves, each other and the movement that they are creating. Students will gain control of their movement and increase their movement knowledge. This class will incorporate stories to music, scarves, hoops, percussion instruments and many other props to make the stories come alive.

Performing Arts Acting/Theater Play Class with Miss Reese--By using basic theater technique applicable to your child's age range we can help them explore and tap into the ever growing imagination. We will read stories, make up characters and act them out. Your child will have a blast singing, dancing and performing something new each week.

Performing Arts Music/Singing Class with Miss Kasia--In our music/singing class children will naturally love to sing and play music while learning! Young children's musical growth occurs best in a playful, musically rich, and developmentally appropriate setting. Wiggling, singing, and laughing is so much fun—it's easy to forget how much learning is taking place! That's because music learning and early childhood go hand in hand with confidence in social, emotional, cognitive, and physical development.
